AI for your international classroom project

Design it, run it, review it

Is this for you?

You run, or want to run, an exchange, a partner-class project or a global-issue unit. You're reasonably comfortable with AI tools, or you've done the basics session. You'd like to design the activity in an afternoon instead of a weekend, and find out honestly what AI improves and what it flattens.

MORE INFO https://curateeducationconsulting.nl

9 hours

- 3.5 hrs workshop
- 4 hrs running it with your class
- 1.5 hrs online follow-up, six weeks later

What you walk away with

- One international activity, designed, run and reviewed
- Reusable prompts, plus CLIL language scaffolds for tto classes
- A two-line AI guideline for your school's international work
- A certificate naming the advanced-level Kennisnet indicators covered

When: Wednesday afternoon + online follow-up
Group: 8–16
Language: English
Price: €225 per teacher
Whole team? Ask about the in-school version at a flat fee.

Maps to:

- Kennisnet AI-literacy framework, advanced level
- Nuffic model of international competences
- Erasmus+ priority: digitalization
